Title	<u>Political Theory & Concept / राजनीतिक सिद्धांत एवं अवधारणाएँ</u>
Course Objectives	This course is designed to develop a sound understanding of Political Science with the different meaning of politics and how is it interpreted differently by people holding different ideological positions. The critical engagements with ideologies will allow the students to develop their own understanding of politics. Since the state occupies a central position in the discourses on politics, the understanding of different theories on the state will allow the students to understand the role of the state in the society and how it governs and regulate the power structure. Media and civil society are the drivers of the politics as they perform a communication role, important for information and ideology transmission.
Learning Outcomes	a. The students would be able to explain different approaches to politics and build their own understanding of politics. b. They will be able to answer why the state plays so much central place in the discourses on politics. c. They will be able to make a distinction between nation and state. d. They will come to know about different models of Democracy
